

University

This might be the first time the girls and boys participating in your Day are on a college campus. Give them a tour. Break the students up into groups, assign one or two tour guides depending on how large the group is, and show them around the university. Another activity could be pairing the students up with professors, administrators, and student organization leaders, which would be a great way for girls and boys to learn about life at a university. Also, have various schools within the institution conduct an activity. For example:

Med School

Conduct a lab. Have the students participate in a mock operation or dissection, or view a surgical operation via the web or television.

Law School

Have students participate in a mock trial.

Women's Studies

Have students watch video clips on the portrayal of women and men in advertising and discuss.

Business School

Have students create a business plan.

Here is what the schedule could look like.

Note: Time may vary depending on number of participants and activities you would like to incorporate in the day. Also, remember to factor in time for kids to go to the bathroom or to have a snack.

9:00 am-10:00 am:

Registration and Breakfast. Address parents, relatives, mentors, girls, and boys. Welcome them to your organization's Take Our Daughters And Sons To Work Day and briefly describe what they will be doing throughout the day. This is also a perfect time to give out the gifts for the day.
